

Crypto Mass Adoption

Onboard More Web2 Users to Web3

HoldCoin

Web3 Portal and Narrative

The fact that 4.60 billion people used social media globally in the Web2.0 era by 2023, however, shows that a sizable portion of Web2

users remain disconnected from the Web3 world and unable to make use of the rapidly approaching Web3 era.

We are creating a Web3
game while adhering to the
investing philosophy of
"Hold"

Building a bridge and portal between Web2 and Web3 so that more

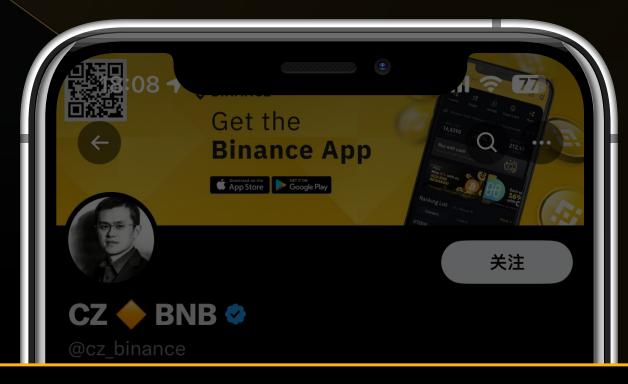

Web2 users may easily convert to Web3.

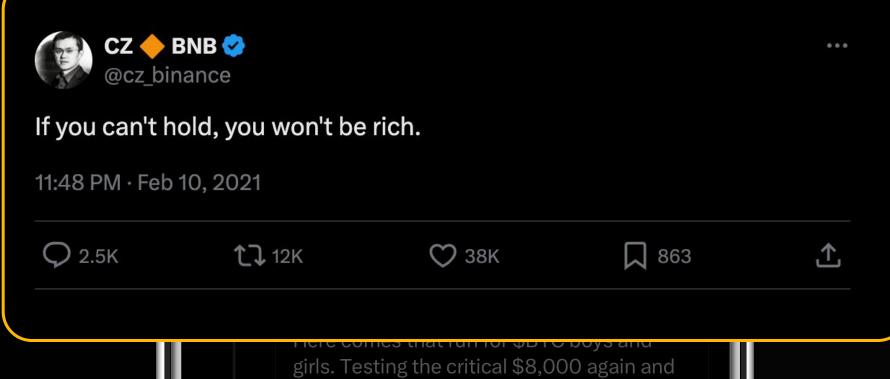

About HoldCoin

The idea for Holdcoin was sparked by the tweets of CZ, the former CEO of Binance.

I swear the market pumps at the most

11:00AM in California and New York?

random hours. 11:00PM here. 8:00AM or

again.
